

Have Fun! Stay Hydrated!

Outdoor Tubular Drinking Solutions

Halsey Taylor outdoor units offer attractive, long-lasting durability that withstands the elements. The resilient exterior is constructed from Type 316 stainless steel — standard on all Halsey Taylor outdoor tubular units! They are designed for high-traffic areas such as parks, pools, golf courses, and educational and work campuses.

Halsey Taylor®

Type 316 Stainless Steel

- Incorporates molybdenum for increased corrosion resistance.
- Is ideal for high-saline environments such as coastal regions and outdoor areas where deicing salts are common.

Sealed Freeze Resistance*

Our freeze-resistant models feature completely enclosed and sealed valves to keep water safe from contamination.

*Available on select models

Quick Fill and Laminar Flow

- Quick fill rate is 1.0 GPM. Fills faster than a standard drinking fountain.
- Laminar flow produces a clean fill with minimal splash.

Built Tough

- Body constructed of 1/8" thick Type 316 stainless steel.
- Durable, powder-coated exterior provides superior protection from the elements.
- Vandal-resistant push buttons, bubblers and screws.
