

**Halsey Taylor®**

## VANDAL-RESISTANT RETROFIT FILTRATION KITS

Retrofit filtration kits are an ideal solution to add a filtration system on existing non-filtered water coolers, fountains and bottle filling stations. The kits can be applied to Halsey Taylor® or non-Halsey Taylor branded units. They are available with and without a filter status monitor and alert.

### KIT FEATURES:

- **Vandal-resistant Enclosure:** Made from 20-gauge stainless steel to protect filter and discourage tampering. Torx® bit included for added security.
- **Versatile Mounting Options:** Box can be mounted virtually anywhere near an accessible water line. Box includes conduit punch-outs on sides and bottom and an open back for thruwall plumbing. (Vandal-resistant conduit not provided.)
- **WaterSentry® VII Filter:** 1,500-gallon capacity filter, NSF 53 and 42 certified for the reduction of lead, chlorine, taste, odor and Class 1 particulates.
- **Filter Status Monitor and Alert\*:** LED filter monitor and audio alert indicate when replacement is necessary.
